

What is the Parent Council ?

The Parents Voice in School

Who are the Parent Council ?

Any Parent who wants to join

Why is there a Parent Council ?

To have communication between Parents and Teachers

What does the Parent Council need ?

Parents who can give a small amount of time during the school day

What the Council has achieved so far

School Gates

The parent council has approached the school about the appearance of the school gates to give a more welcoming feel to the front of the school. This suggestion has been passed to the governors.

Help within school

We support the school by involving parents to help within classes. Claire Bell and Ruth Cooper have already put this in to practice and are thoroughly enjoying themselves as you will see in our forthcoming news letter. There are still other parents, currently waiting CRB checks who will also be helping out in school.

E Mail

The Parent Council have requested an e mail address to be assigned so that parents can mail their suggestions and comments to be included in future meetings.

Interpreters

There are now four interpreters ready to translate all school documents

Latvian, Polish, Philippine and Romanian

It's not essential to be able to attend the meetings, we understand many of our Parents work long hours. This doesn't mean they can't be involved now and again or even regularly in other ways. There are so many ways that Parents can get involved in school life on a small or larger scale, we don't want people to feel ruled out because of work or other commitments....
